Why Train at AllSkilled?

MISSION

AllSkilled helps individuals start a new career through short-term training, certification preparation, and career readiness. We prepare our students for careers in high-demand industries with long-term growth potential.

CLASSROOMS

AllSkilled of Austin, Dallas, Fort Worth, Houston, Killeen, New Braunfels, and San Antonio are online only campuses.

CLASS SIZE

The average class size is 25 students with a maximum class size of 50. The average student to teacher ratio is 25 to 1.

SPECIAL NEEDS

AllSkilled welcomes applicants with special needs. These applicants must meet the same admissions criteria as any other student. If a student has any special educational needs, those need to be disclosed during the enrollment process. AllSkilled will assess these circumstances at that time and make reasonable accommodations.

Benefits of Certification

GET CURRENT

- New technologies, processes, and best-practices are brought to market frequently. Our career education programs are constantly updated and therefore represent a unique opportunity for individuals to update their knowledge and skills.
- For individuals with limited experience or new aspirations, certifications are an effective way to quickly ramp up knowledge and skills to pursue a new job career in as little as few months.

GET HIRED*

- Certifications help individuals differentiate their skills against other job candidates. When employers are interviewing, the competition is often stiff. Job applicants with certification will clearly have an advantage.
- Certifications are a priority among hiring managers. 91% of managers consider certification as part of their hiring criteria.¹
- 95% of tech employers agree IT Certifications provide a baseline set of knowledge for certain positions.¹

*AllSkilled provides training that may lead to but does not guarantee employment

GET CONNECTED

- Certifications help individuals plug into new communities to share knowledge and best practices. Many of these groups offer member-only benefits, such as job boards, white papers, and networking opportunities.

GET RECOGNIZED

- Many employers internally recognize employees when they obtain an IT, project management or other certification. As a result of this recognition, certified employees often gain broad exposure across an organization which can result in new connections and project opportunities.
- Certifications are an objective, unbiased barometer of your skills. Certified employees stand out among peers when seeking an internal job promotion as they are more likely viewed as expert-level members of the team and a continuous learner.
- In addition to a certificate of class completion, students receive access to nationally-recognized certifications after successfully passing the assessment.

EARN MORE

- Certifications commonly lead to an increase in salary. For example, PMP-certified project managers earn an average of 22 percent more in salary than non-certified project managers.²

*AllSkilled does not guarantee an increase in salary

1. CompTIA, <https://connect.comptia.org/content/guides/guide-to-hiring-in-information-technology>
2. PMI, Earning Power: Project Management Salary Survey, 11th Edition, 2020, <https://www.pmi.org/learning/careers/project-management-salary-survey>

*AllSkilled does not grant certifications. Certifications are earned after successfully passing a vendor certification exam. Information about life of a vendor certification, PDU/CEU requirements, and recertification should be obtained from the vendor.

How We Deliver Our Training Programs

AllSkilled delivers instructor-led training through the use of a two-way communication system called "InClass". InClass is an integrated platform using modern technology with instructor-led, virtual classroom training. This modality provides live interaction with the instructor and other students in the same cohort program. The instruction is synchronous with a designated time for classroom instruction.

In the InClass platform:

- The InClass Classroom creates a single platform for tracking student attendance, progress, grades, and transcripts.
- Each student logs into the InClass Classroom environment at their designated class start time with their individual student log in. Each student logs out of InClass at the end of each class session which allows for total accuracy in attendance taking. Log in/access times are recorded inside the InClass Classroom and can be accessed at any time by the instructor or our Student Services team to support the student's progress.

- Every live lecture given by the instructor is captured to ensure total quality instruction. The student will have the ability to access an archive of each lecture in its entirety for up to twelve months following each course.
- Instructors can review utilization and progress of all student labs for grading and review purposes. Students can log into the labs at any time for additional practice.

For a complete list of AllSkilled locations, please visit our website at allskilled.com

Network Systems Administrator Professional Program

The Network System Administrator Professional program is designed to teach students the knowledge and skills required to work with various computer systems within a business environment. Graduates of this program will know how to oversee the performance of computer systems, maintain system functioning, perform data backups, troubleshoot, and ensure network security. They will also learn how to oversee the day-to-day operations of an organization's computer network and communication system by installing, supporting and managing networks and systems. Graduates of this program may find suitable employment as Network and Computer Systems Administrators, Network Support Specialist, Help Desk Analyst, and many other IT related positions.

Program

Length: 36 weeks / 648 contact hours

*For specific course times, see "School Calendar".

Cost: \$15,000*

* Please see "Tuition and Fees" for a total cost breakdown

Certifications Earned

AllSkilled Certificate of Completion

Course Descriptions

NSAP1: IT Networking & Security

Length: 216 hours (138 hours of lecture; 78 hours of lab)

Prerequisite(s): None

Learning Objectives: Students will acquire the essential skills and information needed to install, configure, optimize, troubleshoot, repair, upgrade, and perform preventive maintenance on PCs, digital devices, and operating systems. Students will also learn networking concepts to help prepare for potential careers in network support or administration. Lastly, students will learn to evaluate and examine security policies, implement account management security controls, and how to utilize security measures to protect data and information..

NSAP2: Cisco Infrastructure

Length: 216 hours (140 hours of lecture; 76 hours of lab)

Prerequisite(s): NSAP1

Learning Objectives: Students will learn how to describe network fundamentals and build simple LANs, establish Internet connectivity, manage network device security, expand small to medium-sized networks with WAN connectivity, and describe IPv6 basics. Additionally, students will implement scalable medium-sized networks, troubleshoot basic connectivity, and implement various types of solutions associated with network management.

NSAP3: Microsoft Cloud Desktop Administration

Length: 216 Hours hours (141 hours of lecture; 75 hours of lab)

Prerequisite(s): NSAP2

Learning Objectives: Students will gain the knowledge you need to manage devices on-premise and in the cloud. Students will learn how to manage, deploy, upgrade and migrate an Operating System. They will plan and implement device enrollment and configuration, manage and deploy applications, and plan a mobile application management strategy. Students will learn to manage users and authentication using cloud based Azure Active Directory and on-premise Active Directory. They will learn to describe and implement methods used to protect devices and data including general security and network security features including identity, governance, privacy, and compliance features. And lastly, students will learn cloud concepts including core Azure services, solutions and management tools including Azure cost management and Service Level Agreements.

Cisco Networking Program

Organizations can only function if their networks are online. When problems arise, become part of the solution by focusing on Cisco technology. Cisco forms the literal backbone of organizations around the globe and their skills and certifications are some of the most valuable in the IT industry. The Cisco Networking Program includes comprehensive coverage of Cisco routing and switching. Students will learn how to describe network fundamentals and build simple LANs, manage network device security, implement scalable medium-sized networks, troubleshoot basic connectivity, and more. Graduates of this program may find suitable employment as a Computer Network Specialist, LAN Administrator, Network Support Specialist, Network Technician, or System Administrator.

Program

Length: 12 weeks / 216 contact hours

* For specific course times, see "School Calendar".

Cost: \$4,500*

Additionally, students will implement scalable medium-sized networks, troubleshoot basic connectivity, and implement various types of solutions associated with network management.

IT Networking and Security Program

Students enrolled in the IT Networking and Security program will utilize security concepts, tools, and procedures to react to various security incidents regarding network security, compliance, operational vulnerability, and access control identity management. Graduates will know how to provide IT assistance to people and organizations using computer software and equipment. Graduates of this program may find entry-level IT jobs such as a Computer User Support Specialists, Desktop Support Administrators/Technicians, IT Security Specialists, and Help Desk Technicians within office and business environments.

Program

Length: 12 weeks / 216 contact hours

ITNS1: IT Networking & Security

Length: 216 hours (138 hours of lecture; 78 hours of lab)

Prerequisite(s): None

Learning Objectives: Students will acquire the essential skills and information needed to install, configure, optimize, troubleshoot, repair, upgrade, and perform preventive maintenance on PCs, digital devices, and operating systems. Students will also learn networking concepts to help prepare for potential careers in network support or administration. Lastly, students will learn to evaluate and examine security policies, implement account management security controls, and how to utilize security measures to protect data and information.

Medical Office Administration Program

The Medical Office Administration program is designed to teach students the knowledge and skills needed to ensure the quality, accuracy, and accessibility of health information data within various healthcare facilities. Graduates of this program will be able to manage, coordinate, and distribute information surrounding medical billing, patient records, and laws, ethics and regulations surrounding the healthcare industry. Suitable employment as Medical Records and Health Information Technicians, Medical Secretaries, Medical Transcriptionists and other healthcare administrative support positions may be secured by graduates of this program.

Program

Course Descriptions

MOA1: Medical Office Administration

Length: 216 total hours (130 hours of lecture; 86 hours of lab)

Prerequisite(s): None

Learning Objectives: Students will learn various concepts and practices involved in medical office settings such as processing confidential patient information, understanding laws and ethics surrounding patient information and maintaining accurate bookkeeping and banking processes. Additionally, students will learn the medical terminology used to describe the body system, and how to create, edit, and enhance medical records.

IT Networking Security and Infrastructure Program

There is a direct link between an organization's ability to properly manage their network and their ability to achieve their business objectives. IT professionals who understand how to best manage and protect a network will always be in demand. The IT Networking Security and Infrastructure Program includes coverage of IT and security fundamentals while also providing a more in-depth study of networking infrastructure. Students will learn to utilize security measures to protect data and information, manage network device security, expand small to medium-sized networks with WAN connectivity, describe IPv6 basics, and much more. Graduates of this program may find suitable employment as an IT Security Specialist, Network Administrator, Security Analyst, Systems Specialist, or Technical Support Specialist.

concepts to help prepare for potential careers in network support or administration. Lastly, students will learn to evaluate and examine security policies, implement account management security controls, and how to utilize security measures to protect data and information.

ITNS12: Cisco Infrastructure

Length: 216 hours (140 hours of lecture; 76 hours of lab)

Prerequisite(s): ITNS11

Learning Objectives: Students will learn how to describe network fundamentals and build simple LANs, establish Internet connectivity, manage network device security, expand small to medium-sized networks with WAN connectivity, and describe IPv6 basics.

Additionally, students will implement scalable medium-sized networks, troubleshoot basic connectivity, and implement various types of solutions associated with network management.

Microsoft Cloud Desktop Administration Program

The business world continues to run on Windows with over 1 billion users on Windows 10 alone. Desktop administration remains a function of every IT department even while contending with the ever-changing landscape of cloud computing. The Microsoft Cloud Desktop Administration Program includes coverage of Azure cloud fundamentals while also providing a more in-depth study of desktop administration. Students will learn to manage, deploy, upgrade, and migrate operating systems, manage and deploy applications, manage users and authentication using cloud based Azure Active Directory and on-premises Active Directory, and much more. Graduates of this program may find suitable employment as an Cloud Support Associate, Computer Network Specialist, Desktop Administrator, Desktop Support Technician, or Help Desk Analyst.

ADMISSIONS

Program Admission

1. Be at least 17 years of age*

*Applicants under the age of 18 require written permission from a parent or legal guardian to enroll.

2. Complete the AllSkilled Student Application

3. Have a consultation with an AllSkilled Career Consultant to review the application, evaluate skills and experience levels, and identify education and career goals*

*resumes, transcripts, certifications, and other items may be reviewed at this time

4. Take the AllSkilled entrance exam and achieve the required minimum score (see "Entrance Exam")

5. Provide proof of at least one of the following*:

- a. Secondary education (HS Diploma or equivalency test); or
- b. Post-secondary education (college transcripts)

*Students may be required to provide proof of more than one of the options listed above. Transcripts over 10 years old may not be required. Students utilizing VA benefits must provide ALL transcripts from any post-secondary institutions attended.

6. Establish and agree upon a payment method

7. Complete the new student enrollment packet

Non Discrimination

AllSkilled is an equal opportunity education institution and will not discriminate on the basis of race, color, creed, religion, gender, sexual orientation, age, gender identity, disability, national origin, military service, or marital status.

Entrance Exam

AllSkilled utilizes an academic version of one of the most widely used and respected cognitive tests in the world, the Wonderlic SLE (Scholastic Level Exam) to assist with student evaluation. By measuring an individual's ability to learn, adapt, solve problems and understand instructions, AllSkilled is able to admit students into compatible training programs.

Program	Required Score
Cisco Networking	17
IT Networking & Security	17
IT Networking Security and Infrastructure	17
Medical Office Administration	17
Microsoft Cloud Desktop Administration	17
Network Systems Administrator Professional	19

EDUCATIONAL CREDITS

Policy For Granting Credit

Students must have all previous education and experience evaluated for credit prior to enrollment. AllSkilled will evaluate courses taken from another school, college, and prior vendor certifications to determine how much credit, if any, may be granted. The Compliance department will evaluate all such items and document how much credit (if any) was granted for each item evaluated. Credit for courses taken more than 3 years prior to enrollment is not guaranteed. Tuition, fees and required attendance hours will be adjusted for courses or certifications for which credit is granted. A record of previous education noting any granted credit will be included in the student file.

Advanced Standing

AllSkilled does not provide advanced standing. While testing will be done to determine a student's ability to learn and be successful in a program, no testing is

offered that would allow for a student to test out of a particular course or courses for programs offered through AllSkilled.

Transfer Credit

AllSkilled does not guarantee transfer of credit. Students intending to transfer out of our programs should research the schools where they plan to transfer their credits. Completion of a program at AllSkilled neither implies nor guarantees that educational requirements of another school have been met.

TUITION, MATERIALS, SUPPLIES

Tuition, Materials, Supplies*

*AllSkilled does not charge registration fees.

Clock Hours, Program Name
Tuition | Materials & Supplies | Lab Fees | Total Cost

216 Cisco Networking
\$3,246 | \$144 | \$1,110 | \$4,500

216 IT Networking and Security
\$5,777 | \$313 | \$1,410 | \$7,500

432 IT Networking Security and Infrastructure
\$7,841 | \$382 | \$1,777 | \$10,000

216 Medical Office Administration
\$5,978 | \$947 | \$575 | \$7,500

216 Microsoft Cloud Desktop Administration
\$3,008 | \$250 | \$1,742 | \$5,000

648 Network Systems Administrator Professional
\$10,849 | \$632 | \$3,519 | \$15,000

Payment Methods

AllSkilled currently accept the forms of payments listed below.

- Check or Money Order
- Bank ACH Payment (arrangements can be made upon enrollment)
- Various government funded programs
- Education Loans (Potential students who would like to apply for training loans can visit www.allskilled.com for more information.)

Billing

When possible, AllSkilled will bill students for the total cost of the program; however, some agencies may have different billing requirements. Below is a breakdown of fees by class:

Hours	Medical Office Administration	Cost
216	Medical Office Administration	\$7,500
180		\$7,500

Hours	Network System Administrator Professional	Cost
216	IT Networking & Security	\$5,500
216	Cisco Infrastructure	\$4,500
216	Microsoft Cloud Desktop Administration	\$5,000
648		\$15,000

Hours	IT Networking And Security	Cost
216	IT Networking & Security	\$7,500
216		\$7,500

Hours	IT Networking Security and Infrastructure	Cost
216	IT Networking & Security	\$5,500
216	Cisco Infrastructure	\$4,500
432		\$10,000

Hours	Cisco Networking	Cost
216	Cisco Infrastructure	\$4,500
216		\$4,500

Hours	Microsoft Cloud Desktop Administration	Cost
216	Microsoft Cloud Desktop Administration	\$5,000
216		\$5,000

Financial Aid*

AllSkilled accepts payment plans and loans. Loans are types of assistance that require an individual to pay back the institution providing the educational funding. Loans accrue interest and are either federal or private. Private loans often have stricter credit requirements as well as higher interest rates due to the fact that they are not “guaranteed” like federal student loans are. Payment plans are available to all students.

*Terms and conditions of Financial Aid are subject to change.

CANCELLATIONS AND REFUNDS

Postponement of Start Date Policy

If for any reason the scheduled start date must be changed, a new scheduled start date will be jointly determined by the student/funding source and AllSkilled.

Cancellation Policy

A full refund will be made to any student who cancels the enrollment contract within 72 hours (until midnight of the third day excluding Saturdays, Sundays and legal holidays) after the enrollment contract is signed. A full refund will also be made to any student who cancels enrollment within the student’s first three (3) scheduled class days, except for items of extra expense that are necessary for the portion of the program attended and stated separately on the enrollment agreement.

Program Refund Policy

Refund computations will be based on scheduled course time of class attendance through the last date of attendance. Leaves of absence, suspensions, and school holidays will not be counted as part of the scheduled class attendance.

The effective date of termination for refund purposes, will be the earliest of the following:

- The last day of attendance, if the student is terminated by the school;
- The date of receipt of written notice from the student; or
- Ten school days following the last date of attendance.

If tuition and fees are collected in advance of entrance, and if after expiration of the 72 hour cancellation privilege the student does not enter school, not more

than \$100 in any administrative fees charged shall be retained by the school for the entire residence program or synchronous distance education course. If a student enters a residence or synchronous distance education program and withdraws or is otherwise terminated after the cancellation period, the school or college may retain not more than \$100 in any administrative fees charged for the entire program. The minimum refund of the remaining tuition and fees will be the pro rata portion of tuition, fees, and other charges that the number of hours remaining in the portion of the course or program for which the student has been charged after the effective date of termination bears to the total number of hours in the portion of the course or program for which the student has been charged, except that a student may not collect a refund if the student has completed 75 percent or more of the total number of hours in the portion of the program for which the student has been charged on the effective date of termination.*

* More simply, the refund is based on the precise number of course time hours the student has paid for, but not yet used, at the point of termination, up to the 75% completion mark, after which no refund is due.

Refunds for items of extra expense to the student, such as books, tools, or other supplies are to be handled separately from refund of tuition and other academic fees. The student will not be required to purchase instructional supplies, books and tools until such time as these materials are required.

Once these materials are purchased, no refund will be made. For full refunds, the school can withhold costs for these types of items from the refund as long as they were necessary for the portion of the program attended and separately stated in the enrollment agreement. Any such items not required for the portion of the program attended must be included in the refund.

A student who withdraws for a reason unrelated to the student’s academic status after the 75 percent completion mark and requests a grade at the time of withdrawal shall be given a grade of “incomplete” and permitted to re-enroll in the course or program during the 12-month period following the date the student withdrew without payment of additional tuition for that portion of the course or program.

A full refund of all tuition and fees is due and refundable in each of the following cases:

- An enrollee is not accepted by the school;
- If the course of instruction is discontinued by the school and this prevents the student from completing the course; or
- If the student’s enrollment was procured as a result of any misrepresentation in advertising, promotional materials of the school, or representations by the owner representatives of the school.

A full or partial refund may also be due in other circumstances of program deficiencies or violations of requirements for career schools and colleges.

Refund Policy For Students Called to Active Military Service

A student of the school or college who withdraws from the school or college as a result of the student being called to active duty in a military service of the United States or the National Guard may elect one of the following options for each program in which the student is enrolled:

If tuition and fees are collected in advance of the withdrawal, a pro rata refund of any tuition, fees, or other charges paid by the student for the program and a cancellation of any unpaid tuition, fees, or other charges owed by the student for the portion of the program the student does not complete following withdrawal;

- A grade of incomplete with the designation “withdrawn-military” for the courses in the program, other than courses for which the student has previously received a grade on the student’s transcript, and the right to re-enroll in the program, or a substantially equivalent program if that program is no longer available, no later than the first anniversary of the date the student is discharged from active military duty without payment of additional tuition, fees, or other charges for the program other than any previously unpaid balance of the original tuition, fees, and charges for books for the program; or
- The assignment of an appropriate final grade or credit for the courses in the

program, but only if the instructor or instructors of the program determine that the student has:

- Satisfactorily completed at least 90% of the required coursework for the program and
- Demonstrated sufficient mastery of the program materials to receive credit for completing the program

The payment of refunds will be totally completed such the refund instrument has been negotiated or credited in the proper account(s) within 60 days after the effective date of termination.

Christmas December 25-29

ATTENDANCE

Attendance Policy

Good attendance and academic performance are critical for a successful learning experience. Each course includes materials, labs, and other exercises that build upon each other throughout the duration of a program. It is imperative that students attend all classes for which they are enrolled. Attendance will be taken daily. In order to successfully complete a program, students may miss no more than 20% of a program. Students who miss more than 20% of a program will be considered a drop and will not be considered complete.

AllSkilled does not institute a probationary period based on attendance and will terminate the enrollment of a student who fails to meet attendance requirements. Students who wish to be re-admitted to a program must contact Student Services. If a student does not attend any of the first three days of class, they will be automatically terminated from the program.

Tardiness and Absences

Students must arrive to class on time in consideration of instructors and classmates. Students who anticipate being late to or absent from class must contact Student Services or their instructor by providing their name, class and expected arrival time (or reason for absence, if absent). Students who arrive more than 30 minutes late to class or leave 30 minutes or more before the end of class will be considered a early-out. Five (5) unexcused tardies/early-outs will equal an absent day and will be counted as such into the required attendance policy of at least 80% of the program hours. Students will have an opportunity for make-up assignments

assigned by the instructor (see Make-Up Work).

Leave of Absence

Student Services may grant no more than two leave of absence requests within a 12-month calendar period.

For programs of two hundred (200) clock hours or less, a student may be on a leave of absence for a total of thirty (30) calendar days. For programs of more than two hundred (200) clock hours, a student may be on a leave of absence for no more than a total of sixty (60) calendar days. Students requiring additional time must submit a written request to Student Services. Student Services will evaluate the need for additional time, up to 30 days.

Approval for a leave of absence may be dependent on your funding agencies' requirements.

MAKE-UP WORK

Make-Up Assignments

Make-Up work may be required for students to successfully complete a program.

Make-Up Attendance

Available make-up session days will be provided to students during the program. Students who need to make-up attendance hours must reach out to Student Services to request enrollment in an available make-up session.

For Texas students, no more than 5% of the total program hours can be made up.

GRADES

Grading Scale

Grade	% Range	Academic Status
A	90-100	Excellent
B	80-89	Good
C	75-79	Satisfactory
D	60-74	Unsatisfactory
F	<59	Fail
I	0	Incomplete

Satisfactory Progress

Satisfactory Academic Progress (SAP) is defined as maintaining a grade of seventy-five percent (75%) or higher during each grading period (course). Progress reports may be provided to students at the end of each course or upon request. For information regarding grades below 75%, see "Academic Probation".

Withdrawals, Incompletes, Repeated Courses

Students who withdraw from AllSkilled for reasons unrelated to academic status may request a grade of "I" for "Incomplete".

Students who miss more than 20% of a course will have one opportunity to repeat and complete the course. A repeated course must be taken within six (6) months of the original class end date.

Students who drop a program are not eligible for a retake.

Remedial Work

Remediation plans are not provided by AllSkilled.

Transcripts and Release of Student Records

Students who wish to receive an official transcript must contact Student Services via website (in-writing) and provide the following information: student's name, ad-

dress, phone number and a short explanation of the request. Third party entities may also request student information upon written consent of the student. Student information will be reported to local, state or federal agencies and/or institutions as required by law. Student records are kept digitally at 314 E Highland Mall Blvd, Suite 125, Austin, TX 78752.

ACADEMIC PROBATION

Academic Probation

At the midpoint of a course, if a student's overall grade for a course is below seventy-five percent (75%), that student is placed on academic probation for the remainder of the course. If the student is able to achieve a satisfactory grade by the end of the probation period (course), the student will be removed from academic probation.

However, if a student fails to achieve a satisfactory grade during the first probation period, an additional probationary period will be instated. The school will counsel the student prior to the probationary period and document the date and any actions taken in the student's permanent file. If the student fails to achieve a satisfactory grade by the end of the probationary period, the student's enrollment will be terminated. Students requesting to be readmitted to AllSkilled must contact Student Services.

CONDUCT

Rules of Conduct

Professional conduct, appropriate to a business environment, is expected at all times. This approach best prepares students for success in the work environment and serves to create an upbeat and professional environment in which students can enjoy their learning experience.

AllSkilled reserves the right to determine, at its sole discretion, what constitutes acceptable and unacceptable behavior as well as any actions to take in response to unacceptable behavior up to and including termination from the school.

Anyone who witnesses or feels victim to a violation of AllSkilled's conduct policy should contact Student Services. All policies apply to campus and online training.

Acceptable Use Policy

The Acceptable Use Policy governs the use of the school's computer equipment and its Internet connectivity. The campus computers are dedicated to career training use only and are to be used only as directed.

- Students will not download onto AllSkilled computers, understanding that to do so could cause liability for damage or injury to company intellectual, electronic assets or property.
- Students will not install software or connect media devices to AllSkilled computers without prior approval from instructors or the School Director.
- Students will use the Internet for class-related purposes.
- Students will not play computer games, engage in instant messaging, or visit social networking web pages during class or on breaks while using United Training Academy computers. Personal computers are allowed in the center, but use of the computer is restricted to non-class time use only.
- Students will access only sites authorized by the instructor, and will not participate in sharing certification exam questions or access sites that claim to do so.

Re-Admittance Into a Program

If a student is dismissed from a program due to conduct policy violation, they must contact Student Services for consideration of re-admittance. Re-admission may or may not be granted depending on the events surrounding the misconduct and/or the severity of the violation.

GRIEVANCES

Grievances

A student wishing to file a grievance should follow the five steps listed below:

1. Address and resolve the dispute with the person involved through discussion. A student with a grievance or complaint needs to raise concerns as soon as possible in order to assure that a resolution is made in a timely fashion. If the dispute cannot be resolved at this level, students are encouraged to address the issue verbally with the instructor.
2. If the dispute cannot be resolved through addressing the instructor, the student should contact via email the Director of Student Services (grievances@allskilled.com). The written complaint must be submitted within seven (7) calendar days of the incident or notification of termination. The email should include a description of the grievance, the date or dates when the issue arose, the reason why the student is unsatisfied with the resolution offered in step 1 and the steps the student has taken to resolve to dispute to date. When submitting the email the student should include as much factual evidence as possible.
3. The Director of Student Services will conduct their own investigation of the issue and will respond to the student within seven (7) business days of receiving the escalated complaint. All decisions will be provided in writing.
4. While students are encouraged to attempt to resolve complaints at the institutional level, a student may, at any time, address their concerns by directing them to the appropriate State Licensing Authority. The title and address of the state licensing authority is:

Texas Workforce Commission

Career Schools and Colleges

101 East 15th Street, Room 226T

Austin, TX 78778-0001

P: (512) 936-3100

www.texasworkforce.org/careerschoolstudents

Limitation of Action

All arbitration claims must be filed within thirty (30) days after the date on which the incident giving rise to the dispute occurred. The failure of a party to file an arbitration claim within the applicable limitation period shall constitute a waiver by that party of its right to bring such a claim, and the arbitrator shall have no jurisdiction to hear any claim not filed within such period.

GRADUATION

Graduation

Students must complete coursework, including labs, make up work, and exams, within two weeks of the selected course end date and have a 2.0 GPA and 80% attendance to graduate. Students will receive a Certificate of Completion after the successful completion of a program.

Access to InClass, and most resources, will be available for up to 12 months from completion of program. Length of access to some resources is dependent upon vendor licensing and may be less than one year. No exam resources will be available after one year from program completion. Contact the Student Services Department for any additional questions at studentservices@allskilled.com.

STUDENT SUPPORT SERVICES

Student Support Services

At AllSkilled, our Student Services department assists students with any questions or concerns that may arise while enrolled with our institution. Students will also have access to our Career Services department to assist students with items such as job search, resume building, and preparing for future careers. AllSkilled cannot guarantee placement.

FACULTY

Lewis Beeler

Teaching Certifications: Train the Trainer

Certifications: CompTIA ITF+, CompTIA A+, CompTIA Network+, CompTIA Security+, CompTIA Data+, PMP, Microsoft Certified Solutions Associate, Azure Fundamentals

Education & Awards: BA Pre-Seminar, Cedarville University; MA Biblical Studies, Piedmont Intl. University

Areas of Teaching: IT Networking & Security

David Burt

Teaching Certifications: Train the Trainer

Certifications: CompTIA Security+, CompTIA ITF+, CompTIA Network+, Azure Fundamentals

Education & Awards: BA Finance, Dallas Baptist University

Areas of Teaching: IT Networking & Security

Bill Fitzgerald

Teaching Certifications: Train the Trainer

Certifications: CompTIA A+, CompTIA Network+, CompTIA Security+, CompTIA ITF+, CompTIA Server+, MTA, MCSE, MCP

Education & Awards: HS Diploma, Naval Air Technical Training

Areas of Teaching: Microsoft Cloud Desktop Administration, IT Networking & Security

John Geiger

Teaching Certifications: Train the Trainer

Certifications: CompTIA CTT+, CompTIA ITF+, CompTIA Linux+, MCSA, MCTS, Azure Fundamentals

Education & Awards: BA Psychology, University of California

Areas of Teaching: IT Networking & Security

Todd Glover

Teaching Certifications: Train the Trainer
