MICROSOFT CLOUD
DESKTOP ADMINISTRATION

3 Months. Multiple IT Certifications.
Unlimited Opportunity.

Attend Online   Monday-Thursday | Half Day

No IT Experience Necessary   Morning, Afternoon & Evening Tracks

MANAGE AND ADMINISTER YOUR NETWORK. BECOME INDESPENSIBLE.

The business world continues to run on Windows with over 1 billion users on Windows 10 alone. Desktop administration remains a function of every IT department even while contending with the ever-changing landscape of cloud computing. The Microsoft Cloud Desktop Administration Program includes coverage of Azure cloud fundamentals while also providing a more in-depth study of desktop administration.

PROGRAM TIMELINE

Our 3-month Microsoft Cloud Desktop Administration program teaches students how to manage, deploy, upgrade, and migrate operating systems, manage and deploy applications, manage users and authentication using cloud-based Azure Active Directory and on-premises Active Directory, and much more. Here's a breakdown of your 3-month program.

WEEKS 1-3

Learn about cloud services, different cloud models, Azure solutions, Windows 10 installation and configuration of users, security, and Windows 10 devices.

WEEKS 4-7

Topics include user account authentication, user properties, managing data and the Windows 10 environment, along with security, network connectivity, and recovery.

WEEKS 8-12

Learn about installing and updating Windows 10, Active Directory authentication, planning and managing Intune, PowerShell commands, and Windows Firewall.
